

How to set up Google Voice as cellular voicemail

January 2020

ATT

Voicemail setup

Your carrier: AT&T [Change carrier](#)

Follow these steps to have your mobile phone use Google Voice for voicemail instead of your carrier's voicemail. You can always go back to using your carrier's voicemail later if you want, by entering another code. [Learn more here.](#)

- 1 Enter the following exactly as written, as if you are dialing someone:
****004*1** 10-digit Google Voice nbr **#**
- 2 Press "Send" or "Call" on your phone to dial that number. When you see the confirmation message on your phone, you are done!

Your carrier: AT&T [Change carrier](#)

Follow these steps to deactivate Google Voice voicemail on this mobile phone. If you no longer own this phone number, you can skip this step by clicking "Done".

- 1 Enter the following exactly as written, as if you are dialing someone:
##004#
- 2 Press "Send" or "Call" on your phone to dial that number. When you see the confirmation message on your phone, you are done!
