Pairing a mouse, a keyboard, or both will allow you to quickly and easily navigate menus and enter in words and passwords when searching, filtering or logging in. Some games and apps may also be compatible with a mouse and keyboard.

Pairing a Bluetooth mouse or keyboard

1. Put the keyboard or mouse into bluetooth pairing mode and make sure it is discoverable. See the product's user manual for how to do this, if needed.
2. Navigate to the Bluetooth device list on your TV and select the keyboard or mouse to pair with. The process is slightly different depending on what model of TV you have.
 - **2019 and 2018 Smart TVs (N and R models):** **Settings** > **General** > **External Device Manager** > **Input Device Manager** > **Bluetooth Device List**
 - **2017 Smart TVs (M models) - Keyboard:** **Settings** > **General** > **External Device Manager** > **Keyboard Manager** > **Add Bluetooth Keyboard**
 - **2016 Smart TVs (K models) - Keyboard:** **Settings** > **System** > **Input Device Manager** > **Add Bluetooth Keyboard & Gamepad**
 - **2015 and 2014 Smart TVs (J and H models) - Keyboard:** **MENU** > **System** > **Device Manager** > **Keyboard Settings** > **Add Bluetooth Keyboard**
 - **2015 and 2014 Smart TVs (J and H models) - Mouse:** **MENU** > **System** > **Device Manager** > **Mouse Settings** > **Add Bluetooth Mouse**
3. For Smart TVs manufactured in 2016 and earlier, a code will be displayed on the TV screen when pairing a keyboard. Enter the code on the Bluetooth keyboard to complete the pairing.
